Microsoft Technical Training

Η Ελληνοαμερικανική Ένωση, ως Microsoft Learning Partner, προσφέρει εξειδικευμένα εκπαιδευτικά προγράμματα σε σύγχρονες τεχνολογίες Microsoft, όπως Azure, Windows Server, Microsoft 365 και Power BI. Τα σεμινάρια συνδυάζουν θεωρητική γνώση με πρακτική εφαρμογή μέσα από επίσημο Microsoft courseware, hands-on εργαστήρια και εκπαίδευση από έμπειρους Microsoft Certified Trainers, προετοιμάζοντας τους συμμετέχοντες για πραγματικές επαγγελματικές απαιτήσεις και διεθνείς πιστοποιήσεις.

Γιατί να επιλέγετε μόνο πιστοποιημένο εκπαιδευτικό κέντρο:

- Επίσημο διδακτικό υλικό (eCourseware και iLabs) σε όλους τους σπουδαστές
- Πιστοποιητικό παρακολούθησης από την Microsoft
- Καθηγητές επαγγελματίες (MCPs) και πιστοποιημένοι Microsoft Certified Trainers (MCTs)
- Αξιολόγηση της εκπαίδευσης στο παγκόσμιο σύστημα Metrics That Matter (MTM)

Αποκτώντας μια πιστοποίηση της Microsoft αποδεικνύετε τις δεξιότητες και τις γνώσεις σας στα προϊόντα και τις πλατφόρμες της Microsoft, την σχετική εργασιακή σας προϋπηρεσία και τις τεχνικές σας ικανότητες στην επίλυση προβλημάτων. Προσφέρονται σεμινάρια προσαρμοσμένα στις ανάγκες των εταιρειών με επιλεγμένη θεματολογία από τα προγράμματα της Microsoft. Η εκπαίδευση μπορεί να διεξαχθεί είτε στις εγκαταστάσεις μας, είτε σε αυτές του πελάτη.

Microsoft Azure Administrator | AZ-104 (32h + 8h Azure Fundamentals + 8h extra exam prep)

Instructor-led training / live-online training

Level: Intermediate

This course teaches IT Professionals how to manage their Azure subscriptions, secure identities, administer the infrastructure, configure virtual networking, connect Azure and on-premises sites, manage network traffic, implement storage solutions, create and scale virtual machines, implement web apps and containers, back up and share data, and monitor your solution.

Audience profile & Prerequisites

This course is for Azure Administrators. They will provision, size, monitor, and adjust resources as appropriate. To attend the course, you will need some previous experience in operating systems, virtualization, cloud infrastructure, storage structures, and networking. If you don't have any experience, you can attend the Azure Fundamentals course prior to attending the AZ-104 course.

Microsoft 365 Endpoint Administrator | MD-102 (40h + 8h extra exam prep)

Instructor-led training / live-online training

Level: Intermediate

In this course, students will learn to plan and execute an end point deployment strategy using contemporary deployment techniques and implementing update strategies. The course introduces essential elements of modern management, co-management approaches, and Microsoft Intune integration. It covers app deployment, management of browser-based applications, and key security concepts such as authentication, identities, access, and compliance policies. Technologies like Microsoft Entra ID, Azure Information Protection, and Microsoft Defender for Endpoint are explored to protect devices and data.

Audience Profile & Prerequisites

Microsoft 365 Endpoint Administrators should be well-versed in M365 workloads and possess extensive skills and experience in deploying, configuring, and maintaining Windows 11 and later, as well as non-Windows devices. Their role emphasizes cloud services over on-premises management technologies.

Microsoft 365 Administrator | MS-102 (40h + 8h extra exam prep)

Instructor-led training / live-online training

Level: Intermediate

Gain the skills required to manage and secure modern Microsoft 365 environments. The course covers Microsoft 365 tenant administration, user and identity management, Microsoft Entra synchronization, security and compliance management, licensing, administrative roles, MFA, and data protection policies. Participants will also learn how to manage Microsoft 365 Apps deployments and implement compliance solutions including retention, archiving, and sensitivity labels.

Audience Profile & Prerequisites

Ideal for IT professionals pursuing the Microsoft 365 Administrator role and who have completed at least one Microsoft role-based certification path (e.g. MD-102).

Power BI Data Analyst Associate | PL 300 (40h + 8h extra exam prep)

Instructor-led training / live-online training

Level: Intermediate

Gain the skills required to analyze data, build interactive dashboards, and deliver actionable business insights using Microsoft Power BI. The course covers data preparation and transformation with Power Query, data modeling, DAX calculations, interactive visualizations, dashboard creation, and report publishing in the Power BI Service. Participants will also learn how to connect to multiple data sources, implement data security, optimize report performance, and create modern business intelligence solutions that support data-driven decision making.

Audience Profile & Prerequisites

Ideal for business professionals, analysts, and IT professionals who want to develop practical data analytics and business intelligence skills using Microsoft Power BI. Participants should have basic knowledge of data concepts, Excel, and business reporting fundamentals.
